

## ASSESSMENT FOR STUDENTS ENTERING GRADES 7 AND ABOVE

We do not have any assessment tests for students entering grades 7, 8, 9, 10, 11, and 12+

### What is the difference between *Easy Grammar Plus*® and *Easy Grammar Ultimate Series*® texts?

*Easy Grammar Plus*® is ideal for students in Grade 6 and above who need a solid understanding of basic grammar. It's especially popular because it's written at a fourth/fifth grade reading level, allowing older students to focus on mastering grammar concepts without being overwhelmed by complex language. Like the earlier levels, *Easy Grammar Plus*® teaches concepts sequentially through clear grammar units. Using a prepositional approach, the text simplifies sentences; therefore, students can easily identify subjects and verbs. Then, they can progress to more advanced topics such as subject-verb agreement, predicate nominatives, and correct grammar usage across all areas. For more information on *Easy Grammar Plus*®, please watch this [video](#).

The *Easy Grammar Ultimate Series*® combines features from both *Easy Grammar*® (teaching series) and *Daily GRAMS*® (review series). Like *Easy Grammar*®, it is a teaching text, presenting concepts in depth. The format also follows the 10-minute, 180-day lesson format found in *Daily GRAMS*®, making this ideal for daily instruction.

This series covers both basic and advanced topics, including phrases, clauses, and compound-complex sentences. Grammar concepts are introduced, reinforced, and expanded throughout the year, ensuring long-term retention. The *Easy Grammar Ultimate Series*® is available for Grade 8 through Grade 12+. For more information on the *Easy Grammar Ultimate Series*®, please watch this [video](#).
